

Love Remembers

A husband's letter, a wife's journey, and the **care that keeps them together!**

Honey,

On this special occasion, I want you to know how deeply I cherish you — not just for who you were, but for the beautiful person you are today. In the quiet moments and gentle smiles, I see the woman I fell in love with.

Caring for you has been the most important role of my life, but it's also a challenge I can't face alone. I've come to realize that accepting help doesn't lessen my love — it strengthens it. With the right support, I can be a better husband and caregiver to you.
