

*Honoring Nurses Week by
Focusing on What Happens Next*

The Reality that Nurses Navigate Every Day

- 💔 More complex patients
- 💔 Shorter hospital stays
- 💔 Increased pressure to prevent readmissions

WHAT HAPPENS AFTER PATIENTS GO HOME?

Medications

Missed doses or
confusion about
schedules

Nutrition & Hydration

Skipped meals or
poor intake

Mobility & Safety

Unsteady movement
and fall risk

Change Detection

Subtle symptoms
unnoticed

Why This Matters

These are not clinical failures. They are support gaps, and they are one of the biggest drivers of...

- Readmissions
- Complications
- Patient decline

Home Care Supports Nurses

- ✓ Reinforces discharge instructions.
- ✓ Supports medication adherence.
- ✓ Assists with safe mobility.
- ✓ Monitors and reports changes.
- ✓ Provides consistent daily oversight.

Extend Your Care

You don't just discharge patients; you set them up to succeed. We help carry that forward.

Great care doesn't stop at the hospital door. The Power of Partnership!
